

CV: Gursky Igor

✉ design-gur@yandex.ru

Technical skills: TypeScript, NestJS, VueJS, Gridsome, Feathers, Microservices, PostgreSQL, MongoDB, AJAX & Websockets, PHP, OOP, HTML(+ JADE), CSS (+ LESS/SASS), GULP and it's plugins (not using nowadays), Zend Framework, MODX, jQuery, Arduino

Software: VS Code, Git (mostly, gui SourceTree preferable), Docker (basics), Kanban boards like Trello, Figma, Different graphical soft (programms & php/js libiries), MS Office, Co2 Laser Cutting & Engraving & CNC Routing software

Operating systems: windows - XP/7/8.1/10/11, windows - cmd/powershell, linux - ubuntu, linux - bash, linux - lamp

Soft skills: I practice active listening and I used to indicate the bottle necks of each project/task at first. Very autonomous, but also a good team-player. The choise depends on how I estimate my knowledge in a specific task and if I can find somebody, who have a better solution. Like to learn. Can lead a small team (in stack, that I practice for a long time).

Significant projects I've worked on:

Skytrainer (*ex. SkySeller*)

Fullstack developer; Script-coder; Consultant

Universum Web

Creator; CO-Founder; Full-stack developer

Geo DB

Backend developer

Sapato.ru

ADS Designer; HTML-coder

Gostash

Technical & Marketing consultant

QuestPark

Full-stack developer

Freelance

Web & polygraphy designer, HTML-coder, webmaster.
